This book has been copied by me from the original volume of John Long, Chancery Clerk of Monroe County, Mississippi. This is the earliest known record of the property taxes were either lost or misplaced in the course of the Court House. At present this book is in bad condition as it does not have a back and is badly worn but it is slated to be re-bound in the near future.

I have arranged this book in alphabetical order and have listed the Tax Payer (or occupant) specifically named of land. However, many of them will have holdings in other Sections in the County. The appropriate records can be furnished upon request.

The purpose of this book is to give you, "The People who are or will be interested in Genealogy" a record of these early Monroe Countyians.

## NOTES OF EXPLANATION

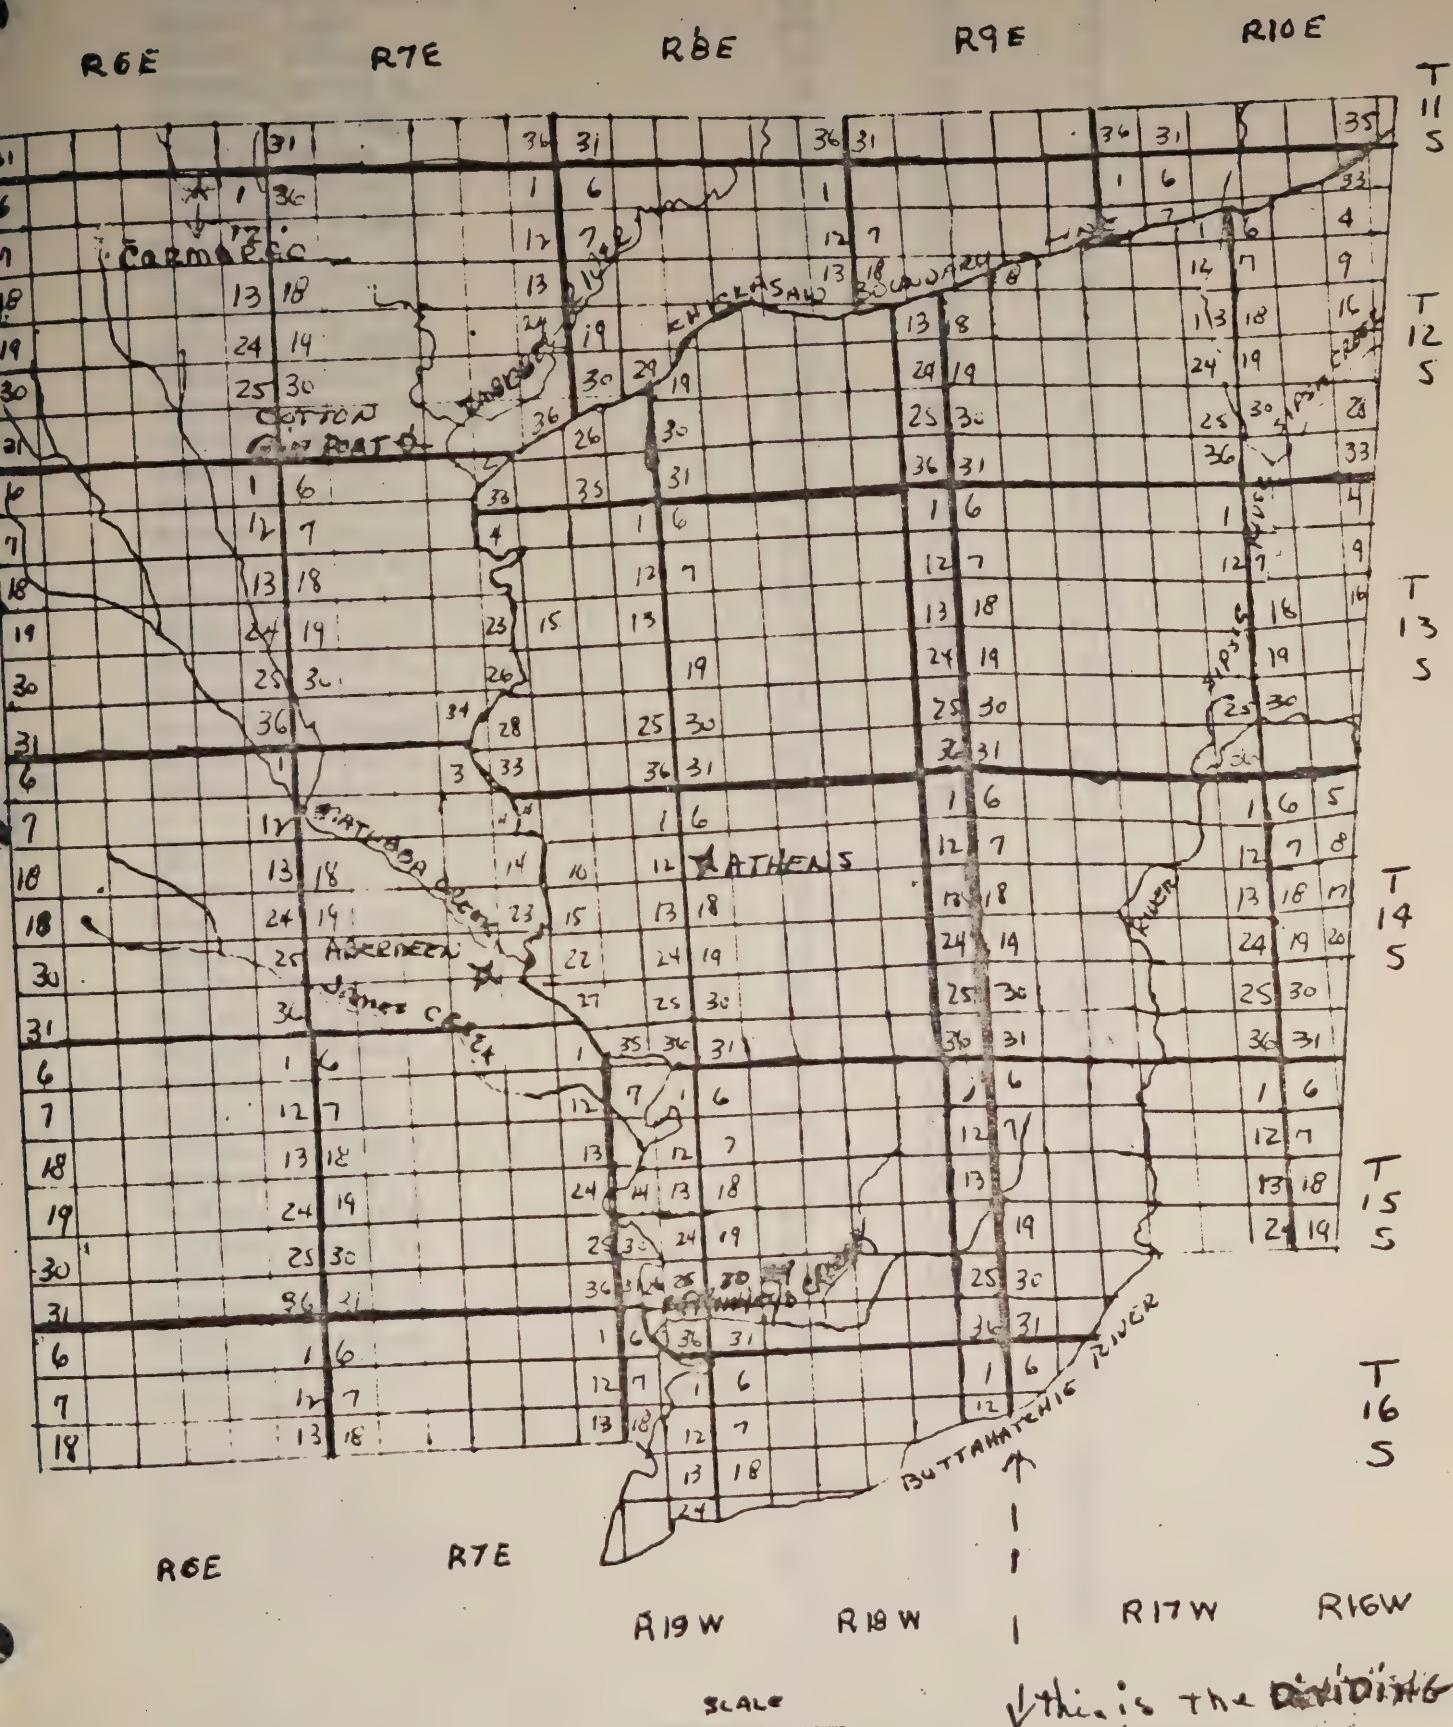

This 1848 Tax Assessment Roll has been copied by me from the original in the office of Haran Young, Chancery Clerk of Monroe County, Aberdeen, Mississippi. This is the earliest known Roll as the previous ones were either lost or misplaced in the moving of the Court House. At present this book is in bad condition as it does not have a back and is badly worn but it is slated to be re-bound in the near future.

I have arranged this book in alphabetical order and have limited the Tax Payer to only one specific parcel of land. However, many of them had large holdings in other Sections in the County. The approximate acreage can be furnished upon request.

The purpose of this Book is to give you, "The People who are or will be interested in Genealogy" a record of these early Monroe Countians.
